

SkinTech

65% Hyaluronic Acid Serum

HA Benefits: Sodium Hyaluronate is a superior hydrating and plumping serum that transforms skin from the inside out. This clinical strength hyaluronic acid is known for holding up to 1000 times its weight in water. A component of skin tissue- HA helps to boost skin's moisture content, reduce inflammation, triggers cell communicating abilities and reduce moisture loss.

Zinc Benefits: Zinc accelerates skin cell renewal and has been proven effective in treating acne. Zinc is also used as an anti-inflammatory agent and helps soothe skin tissue.

Ingredients: 65% Hyaluronic Acid, Water, Zinc.

Use on: All Skin Types, Post-Procedure

Call for Wholesale pricing: 8oz
